THOR

CHAIRMAN'S STATEMENT

Michael Billing
Chairman
Thor Mining PLC

Thor is a mineral
exploration and
development company
focussed on advancing
molybdenum and
tungsten projects
in the Northern
Territory of Australia

The 2009 financial year has been challenging for your company, enduring market conditions which can only be described as difficult. The financial year started with metal prices at or near record highs although the collapse of financial markets was setting the near term tone. Within a few months, metal prices followed debt and equity markets and the resource industry generally was in a very difficult period.

In particular for Thor Mining PLC the price of tungsten and molybdenum, the principle products from our Molyhil flagship operation, were seriously eroded with molybdenum falling from US\$34/lb in August 2008 to US\$8/lb in April 2009 while tungsten suffered similarly although less dramatically. Subsequently the price of both commodities has recovered partially although not to a level which would justify imminent commencement of construction and development at Molyhil.

Despite this gloomy news the fundamentals of the Company's flagship project, Molyhil, remain sound. Your directors believe that the medium term demand for and pricing of tungsten and molybdenum products remain strong, and we are optimistic that they will recover to a level which will allow construction activities to commence in the medium term.

The focus of activities during the year was on reviewing the proposed operating methodology to reduce capital and operating costs. The belief of the Directors is that a mining operation with a relatively short life (less than 10 years) would be more economically operated using contractor supplied equipment and staff wherever practical compared with the approach contained in the 2007 feasibility study. The capital reduction programme and investigation into the reduction of operating costs is ongoing.

In January 2009 the Company raised approximately UK£220,000 by way of a placing to sophisticated investors and in July 2009 a further UK£450,000 was raised before costs. All junior resource companies are required to replenish cash reserves on a regular basis until production revenues begin to flow, following the development of a project. The Directors believe that further capital raisings will be necessary in the coming financial year.

Molyhil mine site
RC drilling (East side)

Corporate Activities

During the year Mr John Young resigned as a director of the Company. His contribution to the Company was significant and we wish him well in his future endeavours.

In June, 2009 the Company relocated its head office including all secretarial, accounting, payroll and administrative activities from Perth to Adelaide and in doing so closed the Perth office at the end of the lease in August, 2009. This relocation meant a change to the Company Secretary position. Mr Laurie Ackroyd has been appointed as Chief Financial Officer and Australian Company Secretary. Laurie is an accountant with over 45 years experience in the building services, manufacturing and transportation industries where he held senior financial executive and company secretarial positions. Laurie is also the Chief Financial Officer and Company Secretary of Western Desert Resources Limited which currently holds 24,973,076 ordinary shares in Thor.

Personnel

Mr Ian Sheffield-Parker has been appointed Chief Executive Officer. In early 2009, Mr Sheffield-Parker relocated to Adelaide, South Australia. Mr Sheffield-Parker has a background in both mining engineering and process engineering with over 20 years experience in Australia and southern Africa.

Mr Sheffield-Parker is currently reviewing the proposed Molyhil mine methodology and the feasibility of that project.

The Directors and I gratefully acknowledge the efforts of our very small band of employees, contractors and consultants who have assisted us during the past year and continue to assist in our next phase as we move towards development of mining operations at Molyhil.

Michael Billing
Chairman, Thor Mining PLC
29 September 2009

CHIEF EXECUTIVE OFFICER'S REVIEW

Management Overview of Operations

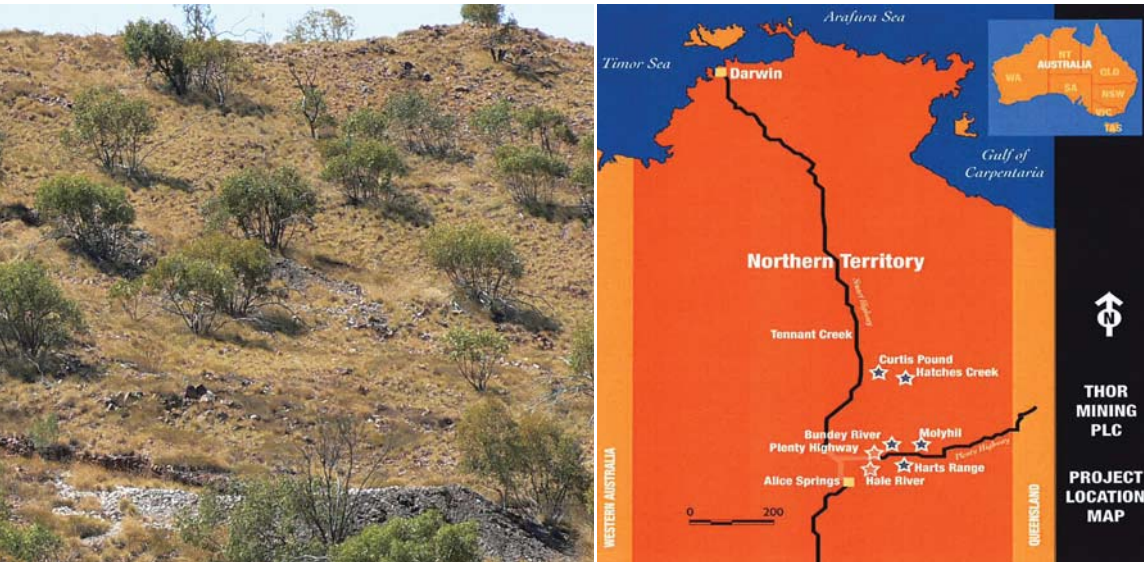

It has been a challenging year for Thor Mining with the “Global Financial Crisis” taking its toll on commodity prices during the year, specifically Molybdenum and Tungsten, forcing Thor to review its strategy and formulate a plan that would see Thor strengthen its position when demand for its commodities would inevitably return. Thor has continued to build key relationships in the Northern Territory where all the tenements are situated.

The year has seen a re-evaluation of the Molyhil feasibility study with the objective of decreasing the capital and operating costs for the project by changing the philosophy of “owner mining” to “contract mining” and dramatically reducing the construction time.

Further drilling has been completed at Molyhil to firm up the Resource and to investigate various magnetic anomalies that were present in the northern most area of the ML23825. This has resulted in the release of a revised JORC – Code compliant mineral resource statement and revised mining reserves estimation for the Molyhil Molybdenum – Tungsten Project, again seeing over 70% of the Measured and Indicated Resource being converted into a Proven and Probable Mining Reserve. This has shown an increase to 4.9 million lbs of Molybdenum, and a slight decrease to 620,000 mtu of Tungsten for the initial 3.7 years of the mine.

The year has also seen a rationalisation of Thor’s Uranium Assets, Exploration Leases EL24809, EL24810, EL24823 and EL25378 being halved in size and Exploration Leases EL24827 and A24766 being surrendered. Two further Exploration Leases, EL24735 and EL24765 have been reduced in size and the remainder of the Exploration Leases, EL24734 and EL24736 have not changed in size. Thor has ensured that it has retained the core assets of these leases so we can effectively explore the Uranium assets throughout the coming year.

The main objective of the proposed Molyhil development is to produce scheelite and molybdenite concentrate for sale

REVIEW OF OPERATIONS – Thor Projects

MOLYHIL TUNGSTEN – MOLYBDENUM PROJECT (MOLYHIL)

The Molyhil Tungsten – Molybdenum Project occurs as scheelite and molybdenite mineralisation within a magnetite skarn.

The Molyhil Project is a proposed open cut mine and processing facility which is planned to produce scheelite and molybdenite concentrates for sale with a potential by-product of fine high quality magnetite.

The project comprises an Exploration Licence (EL22349) and three granted Mining Leases (ML23825, ML24429 and ML25721) situated 310km by road north east of Alice Springs in central Australia.

MOLYHIL EXPLORATION

Molyhil RC Drilling & revised resource

An RC drilling campaign at Molyhil was conducted in January 2009. 16 holes were drilled for a total of 2,340 metres.

All holes drilled within the proposed pit intersected significant widths of MoS_2 and WO_3 mineralisation. The following table summarises the significant intercepts from the January 2009 drilling programme:

Hole ID	N_Local	E_Local	RL	L_Grid_Azi	Dip	Depth	Width	From	To	WO ₃ %	MoS ₂ %	Comments
09MHRC005	19897	10043	412	270	-60	168	8	111	119	0.35	0.01	Southern Extension Down Plunge
09MHRC006	19894	10067	411	270	-60	198	17	127	144	0.22	0.22	Southern Extension Down Plunge
09MHRC007	20006	10045	409	270	-60	120	42	54	96	0.35	0.11	Test gap in model
							2	54	56	3.21	0.27	
09MHRC008	20007	10069	410	270	-60	132	37	83	120	0.20	0.31	Test gap in model
							12	98	110	0.50	0.45

09MHRC013	19941	10010	401	270	-70	120	4	38	42	0.79	0.31	Test gap in model
							8	66	74	0.01	1.23	
							7	99	108	0.25	0.06	
09MHRC014	19965	10009	410	270	-70	114	46	31	77	0.44	0.31	Test gap in model
							3	69	72	0.03	3.01	
09MHRC015	19931	10053	412	270	-65	168	2	97	99	0.24	0.25	Test gap in model
							20	136	156	0.67	0.54	
09MHRC016	19891	10101	411	270	-65	234	53	171	224	0.23	0.24	Southern Extension Down Plunge
TOTAL 2,340 metres												

The January 2009 Molyhil RC drilling results have been incorporated into the existing database. The results confirmed previously outlined mineralisation both near surface and at depth and has enabled the shapes of the mineralised skarns to be more accurately defined.

The drilling confirmed the down plunge continuation of the mineralisation within the Southern Skarn, which is open at depth. The underground potential of this additional mineralisation is significant and additional mineralisation could be accessed by decline from the existing open pit design.

Continental Resource Management Pty Ltd (CRM) has re-estimated the resource, details of which are tabulated below.

The revised resource has slight increases in both tonnage and in MoS₂ and Fe₂O₃ grades from those of the previous estimation, but has a slight decrease in WO₃ grade.

Summary of Rounded Resource Estimates – 15.25% Fe₂O₃ Lower Cut				
Classification	Resource (t)	MoS ₂ (%)	WO ₃ (%)	Fe ₂ O ₃ (%)
Measured	540,000	0.24	0.33	29.4
Indicated	2,300,000	0.18	0.38	27.9
Inferred	900,000	0.20	0.15	27.0
Total	3,750,000	0.19	0.32	28.0

Note: Totals may differ from sum of individual items due to rounding.

The magnetite content of a range of samples from the mineralised skarns was determined by Amdel. CRM estimated that the skarns contain an Inferred Resource of 500,000t of magnetite (3.8Mt @ 13% Fe₃O₄).

Preliminary marketing and metallurgical testing, as completed by the Australian Coal Institute Research Laboratories (ACIRL), has shown the magnetite to be of premium quality for use in the coal washing markets in Australia.

The geological information in this report which relates to Exploration Results and Mineral Resources is based upon information compiled by Mr J J G Doepel, B.Sc (Hons), Grad Dip For Sc, Dip Teach, Principal Geologist of Continental Resource Management Pty Ltd. Mr. Doepel is a member of the Australasian Institute of Mining and Metallurgy and has sufficient expertise and experience which is relevant to the style of mineralisation and to the type of deposit under consideration to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Doepel consents to the inclusion in the report of the matters based on his information in the form and context in which they appear.

Off-take Agreement

Thor has an off take agreement with CITIC Australia Trading Limited (ASX"CAL"). The CITIC Group is one of China's largest state owned companies. The off-take agreement commits CITIC to take 100% of the Molybdenum and Tungsten concentrates to be produced from the Molyhil project.

OORABRA REEFS – BARITE - FLOURITE

Previous sampling has confirmed significant barite mineralisation with assays up to 9.37% Ba returned. Significant fluorite mineralisation is also evident in the area and historically values range from 5.7% CaF₂ to 85% CaF₂ (Central Pacific Minerals). In 1972 Central Pacific Minerals identified an inferred resource of 250,000 short tonnes at 37% CaF₂. The resource is now 100% owned by Molyhil Mining Pty Ltd as part of the recent acquisition of ML77-86 from QER Pty Ltd. The ten ML's are surrounded by the Molyhil EL22349.

The proximity to the proposed infrastructure at Molyhil will allow the Oorabra Reefs mineralisation to be explored thoroughly and developed in the future.

HATCHES CREEK PROJECT

The Hatches Creek Project is comprised of two contiguous Exploration Licences, EL22912 and EL23463 which are located in the central portion of the Northern Territory.

Previous sampling from old workings and abandoned stockpiles associated with historic mining covering the "Hatches Creek Wolfram Field" have returned significant tungsten and copper assays. Mining in the area occurred between 1913 and 1957 over multiple parallel quartz reefs within 16 distinct mineralised areas.

HALE RIVER PROJECT

The Hale River Project is comprised of one Exploration Licence, EL24809 which is located in the central portion of the Northern Territory.

Review of previous exploration activity during the year on the Hale River project led to a reduction in size (halving) of the tenement to reduce costs whilst retaining the core prospects.

PLENTY HIGHWAY PROJECT

The Plenty Highway Project is comprised of one Exploration Licence, EL24810 which is located in the central portion of the Northern Territory.

HARTS RANGE PROJECT

The Harts Range Project is comprised of four separate Exploration Licences, EL24734, EL24735, EL24736 and EL24765, which are located in the central portion of the Northern Territory, south of the Plenty Highway.

The Harts Range group of Exploration Licences was consolidated during the year and involved a reduction in size of EL 24735 and EL 24765 together with a surrender of the small non prospective tenements A 24766 and EL 24827.

The significant uranium and Rare Earth Elements mineralisation in pegmatite at the Daicos prospect is worthy of further exploration in light of long term market trends, in particular the demand for Rare Earth Elements.

BUNDEY RIVER EL25378

The Bunday River Project is comprised of one Exploration Licence, EL25378.

The Bunday River tenement was reduced in size during the year retaining the prospective eastern side of the project. Previous airborne EM and reconnaissance air core drilling has identified coal and lignite units within the palaeochannel which are considered to be highly prospective 'reducing traps' for uranium mineralisation. The full extent of the carbonaceous units is yet to be determined.

Ian Sheffield-Parker
 Chief Executive Officer
 Thor Mining PLC

Exploration and potential development of molybdenum and tungsten deposits in the Northern Territory of Australia

DIRECTORS' REPORT

The Directors are pleased to present this year's annual report together with the consolidated financial statements for the yearended 30 June 2009.

PRINCIPAL ACTIVITIES AND REVIEW OF THE BUSINESS

The principal activity of the Group is the exploration for and potential development of molybdenum, tungsten and uranium deposits in the Northern Territory of Australia. The primary molybdenum and tungsten asset comprises the Molyhil Molybdenum-Tungsten Project ("Molyhil").

A detailed review of the Group's activities is set out in the Review of Operations.

BUSINESS REVIEW AND FUTURE DEVELOPMENTS

A review of the current and future development of the Group's business is given in the Chairman's Statement and the Chief Executive Officer's Review of Operations on pages 2-8.

RESULTS AND DIVIDENDS

The Group incurred a loss after taxation of £1,230,000 (2008: £1,077,000). No dividends have been paid or are proposed.

KEY PERFORMANCE INDICATORS

Given the nature of the business and that the Group is on an exploration and development phase of operations, the Directors are of the opinion that analysis using KPI's is not appropriate for an understanding of the development, performance or position of our businesses at this time.

POST BALANCE SHEET EVENTS

At the date these financial statements were approved, 29 September, 2009, the Directors were not aware of any significant post balance sheet events other than those set out in the notes to the financial statements.

SUBSTANTIAL SHAREHOLDINGS

At 17 September 2009 the following had notified the Company of disclosable interests in 3% or more of the nominal value of the Company's shares:

	Ordinary shares	%
Western Desert Resources Limited ¹	24,973,076	11.53
Pershing Nominees Limited	17,063,000	7.88
Vidacos Nominees Ltd	13,633,308	6.30

¹ Michael Billing, Michael Ashton and Norman Gardner are all directors of Western Desert Resources Limited

DIRECTORS

The Directors who served during the period and their interests in the share capital of the Company at 30 June 2009 was as follows:

	Ordinary Shares		Warrants		Unlisted Options
	30 June 2009/ or Date of resignation	30 June 2008	30 June 2009/ or Date of resignation	30 June 2008	
Michael Billing	150,000	48,000	-	-	1,000,000
John Young ¹	74,176	74,466	-	38,039	1,000,000
Gregory Durack	91,153	91,153	-	45,900	1,000,000
Michael Ashton	701,884	318,877	-	265,050	1,000,000
Norman Gardner	733,941	263,980	-	7,790	1,000,000

¹ Resigned 02 June 2009

DIRECTORS' REMUNERATION

The Company remunerates the Directors at a level commensurate with the size of the Company and the experience of its Directors. The Remuneration Committee has reviewed the Directors' remuneration and believes it upholds the objectives of the Company with regard to this issue. Details of the Director emoluments and payments made for professional services rendered are set out in *Note 5* to the financial statements.

CORPORATE GOVERNANCE

A statement on Corporate Governance is set out on *pages 13 to 16*.

ENVIRONMENTAL RESPONSIBILITY

The Company is aware of the potential impact that its subsidiary companies may have on the environment. The Company ensures that it, and its subsidiaries at a minimum comply with the local regulatory requirements and the revised Equator Principles with regard to the environment.

EMPLOYMENT POLICIES

The Group will be committed to promoting policies which ensure that high calibre employees are attracted, retained and motivated, to ensure the ongoing success for the business. Employees and those who seek to work within the Group are treated equally regardless of sex, age, marital status, creed, colour, race or ethnic origin.

HEALTH AND SAFETY

The Group's aim will be to achieve and maintain a high standard of workplace safety. In order to achieve this objective the Group will provide training and support to employees and set demanding standards for workplace safety.

PAYMENT TO SUPPLIERS

The Group's policy is to agree terms and conditions with suppliers in advance; payment is then made in accordance with the agreement provided the supplier has met the terms and conditions. It is usual for suppliers to be paid within 30 days of receipt of invoice.

POLITICAL CONTRIBUTIONS AND CHARITABLE DONATIONS

During the period the Group did not make any political contributions or charitable donations.

ANNUAL GENERAL MEETING ("AGM")

This report and financial statements will be presented to shareholders for their approval at the AGM. The Notice of the AGM will be distributed to shareholders together with the Annual Report.

STATEMENT OF DISCLOSURE OF INFORMATION TO AUDITORS

As at the date of this report the serving Directors confirm that:

- So far as each Director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- They have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditor are aware of that information.

AUDITORS

A resolution to reappoint Chapman Davis LLP and to authorise the Directors to fix their remuneration will be proposed at the next Annual General Meeting.

GOING CONCERN

Notwithstanding the loss incurred during the period under review, the Directors are of the opinion that ongoing evaluations of the Company's interests indicate that preparation of the Group's accounts on a going concern basis is appropriate. As a Junior Exploration Company the Directors are aware that that the Company must go to the marketplace to raise cash to meet its exploration and development plans. The Directors are currently taking advice as to the timing and appropriate methods of raising new capital.

STATEMENT OF DIRECTORS' RESPONSIBILITY

Company law in the United Kingdom requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The Directors are responsible for keeping proper accounting records, for safeguarding the assets of the group and for taking reasonable steps for the prevention and detection of fraud and other irregularities. They are also responsible for ensuring that the annual report includes information required by the Alternative Investment Market.

ELECTRONIC COMMUNICATION

The maintenance and integrity of the Company's website is the responsibility of the Directors: the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

The Company's website is maintained in accordance with AIM Rule 26.

Legislation in the United Kingdom governing the preparation and dissemination of the financial statements may differ from legislation in other jurisdictions

This report was approved by the board on 29 September 2009.

Laurie Ackroyd
Company Secretary

The Company is committed to the principles of good corporate governance and the Code of Best Practice for listed companies

CORPORATE GOVERNANCE STATEMENT

The Board is committed to maintaining high standards of corporate governance. The Listing Rules of the Financial Services Authority incorporate the Combined Code, which sets out the principles of Good Governance, and the Code of Best Practice for listed companies.

Whilst the Company is not required to comply with the Combined Code, the Company's corporate governance procedures take due regard of the principles of Good Governance set out in the Combined Code in relation to the size and the stage of development of the Company.

BOARD OF DIRECTORS

The Board of Directors currently comprise of one Executive Chairman and three Non-Executive Directors. The Directors are of the opinion that the Board comprises a suitable balance and that the recommendations of the Combined Code have been implemented to an appropriate level.

The Board, through the Chairman and the Chief Financial Officer in particular, maintains regular contact with its advisers in order to ensure that the Board develops an understanding of the views of major shareholders about the Company.

BOARD MEETINGS

The Board meets regularly throughout the year. For the period ending 30 June 2009 the Board met 12 times in relation to normal operational matters. The Board is responsible for formulating, reviewing and approving the Company's strategy, financial activities and operating performance. Day to day management is devolved to the Executive Chairman and the Chief Executive Officer who is charged with consulting the Board on all significant financial and operational matters.

BOARD MEETINGS CONTINUED

All Directors have access to the advice of the Company's solicitors and the Company Secretary. Necessary information is supplied to the Directors on a timely basis to enable them to discharge their duties effectively, and all Directors have access to independent professional advice, at the Company's expense, as and when required.

BOARD COMMITTEES

The Board has established the following committees, each of which has its own terms of reference:

Audit Committee

The Audit Committee considers the Group's financial reporting (including accounting policies) and internal financial controls. The Audit Committee comprises of the full Board and is responsible for ensuring that the financial performance of the Group is properly monitored and reported on.

Remuneration Committee

The Remuneration Committee is responsible for making recommendations to the Board on Directors' and senior executives' remuneration. It comprises of the full Board. Non-Executive Directors' remuneration and conditions are considered and agreed by the Board. Financial packages for the Executive Chairman is established by reference to those prevailing in the employment market for executives of equivalent status both in terms of level of responsibility of the position and their achievement of recognised job qualifications and skills.

The Committee will also have regard to the terms which may be required to attract an equivalent experienced executive to join the Board from another company.

INTERNAL CONTROLS

The Directors acknowledge their responsibility for the Group's systems of internal controls and for reviewing their effectiveness. These internal controls are designed to safeguard the assets of the Company and to ensure the reliability of financial information for both internal use and external publication. The Board is aware that no system can provide absolute assurance against material misstatement or loss, however, in light of increased activity and further development of the Company, continuing reviews of internal controls will be undertaken to ensure that they are adequate and effective.

RISK MANAGEMENT

The Board considers risk assessment to be important in achieving its strategic objectives. There is a process of evaluation of performance targets through regular reviews by senior management to forecasts. Project milestones and timelines are regularly reviewed.

RISKS AND UNCERTAINTIES

The principal risks facing the Company are set out below. Risk assessment and evaluation is an essential part of the Group's planning and an important aspect of the Group's internal control system.

GENERAL AND ECONOMIC RISKS

- Contractions in the world's major economies or increases in the rate of inflation resulting from international conditions;
- Movements in the equity and share markets in the United Kingdom and throughout the world;
- Weakness in global equity and share markets in particular, in the United Kingdom, and adverse changes in market sentiment towards the resource industry;
- Currency exchange rate fluctuations and, in particular, the relative prices of Australian Dollar, the United States Dollar and the UK Pound;
- Exposure to interest rate fluctuations; and
- Adverse changes in factors affecting the success of exploration and development operations, such as increases in expenses, changes in government policy and further regulation of the industry; unforeseen major failure, breakdowns or repairs required to key items of plant and equipment resulting in significant delays, notwithstanding regular programmes of repair, maintenance and upkeep; variations in grades and unforeseen adverse geological factors or prolonged weather conditions.

FUNDING RISK

The Group or the companies in which it has invested may not be able to raise, either by debt or further equity, sufficient funds to enable completion of planned exploration, investment and/or development projects.

COMMODITY RISK

Commodities are subject to high levels of volatility in price and demand. The price of commodities depends on a wide range of factors, most of which are outside the control of the Company. Mining, processing and transportation costs also depend on many factors, including commodity prices, capital and operating costs in relation to any operational site.

EXPLORATION AND DEVELOPMENT RISKS

- Exploration and development activity is subject to numerous risks, including failure to achieve estimated mineral resource, recovery and production rates and capital and operating costs.
- Success in identifying economically recoverable reserves can never be guaranteed. The Company also cannot guarantee that the companies in which it has invested will be able to obtain the necessary permits and approvals required for development of their projects.
- Some of the countries in which the Company operates have native title laws which could affect exploration and development activities. The companies in which the Company has an interest may be required to undertake clean-up programmes on any contamination from their operations or to participate in site rehabilitation programmes which may vary from country to country. The Group's policy is to follow all applicable laws and regulations and the Company is not currently aware of any material issues in this regard.
- Timely approval of mining permits and operating plans through the respective regulatory agencies cannot be guaranteed.
- Geology is always a potential risk in mining and exploration activities.

MARKET RISK

The ability of the Group (and the companies it invests in) to continue to secure sufficient and profitable sales contracts to support its operations is a key business risk.

INSURANCE

The Group maintains insurance in respect of its Directors and Officers against liabilities in relation to the Company. The group insures other assets held having given regard to risks and events that may occur.

TREASURY POLICY

The Group finances its operations through equity and holds its cash as a liquid resource to fund the obligations of the Group. Decisions regarding the management of these assets are approved by the Board. Refer *Note 22*.

SECURITIES TRADING

The Board has adopted a Share Dealing Code that applies to Director, senior management and any employee who is in possession of 'inside information'. All such persons are prohibited from trading in the Company's securities if they are in possession of 'inside information'. Subject to this condition and trading prohibitions applying to certain periods, trading can occur provided the relevant individual has received the appropriate prescribed clearance.

RELATIONS WITH SHAREHOLDERS

The Board is committed to providing effective communication with the shareholders of the Company. Significant developments are disseminated through stock exchange announcements and regular updates of the Company website. The Board views the AGM as a forum for communication between the Company and its shareholders and encourages their participation in its agenda.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF THOR MINING PLC

We have audited the financial statements of Thor Mining Plc for the year ended 30th June 2009 which comprise the Group Income Statement, the Group and Parent Company Balance Sheets, the Group and Parent Company Statements of Cash Flows, the Group and Parent Company Statements of Changes in Equity and the related *Notes 1 to 23*. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the Company's members, as a body, in accordance with sections 495 and 496 of the *Companies Act 2006*. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and auditors

As explained more fully in the Directors' Responsibilities Statement set out on *page 12*, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group's and the parent company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 30th June 2009 and of the group's and the parent company's loss for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the *Companies Act 2006* and, as regards the group financial statements, Article 4 of the IAS Regulation.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF THOR MINING PLC

Opinion on other matters prescribed by the Companies Act 2006

In our opinion:

- the information given in the Director's Report for the financial year for which the consolidated financial statements are prepared is consistent with the consolidated financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following:

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

1 PRINCIPAL ACCOUNTING POLICIES

a) Authorisation of financial statements

The Group financial statements of Thor Mining PLC for the year ended 30 June 2009 were authorised for issue by the Board on 29 September 2009 and the balance sheets signed on the Board's behalf by Michael Billing and Gregory Durack. The Company's ordinary shares are traded on the AIM Market operated by the London Stock Exchange and on the Australian Securities Exchange.

b) Statement of compliance with IFRS

The Group's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The Company's financial statements have been prepared in accordance with IFRS as adopted by the European Union. The principal accounting policies adopted by the Group and Company are set out below.

c) Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, except for the measurement to fair value of assets and financial instruments as described in the accounting policies below, and on a going concern basis.

The financial report is presented in Sterling and all values are rounded to the nearest thousand pounds (£'000) unless otherwise stated.

d) Basis of consolidation

The consolidated financial statements comprise the financial statements of Thor Mining PLC and its controlled entities. The financial statements of controlled entities are included in the consolidated financial statements from the date control commences until the date control ceases.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

All intercompany balances and transactions have been eliminated in full.

e) Exploration and development expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against the income statement in the year in which the decision to abandon the area is made.

A review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure.

f) Revenue

Revenue is recognised to the extent that it is probable that economic benefits will flow to the group and the revenue can be reliably measured.

Interest revenue

Interest revenue is recognised as it accrues using the effective interest rate method.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

1 PRINCIPAL ACCOUNTING POLICIES CONTINUED

g) Deferred taxation

Deferred income tax is provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- i) Except where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and at the time of transaction, affects neither the accounting profit nor taxable profit or loss; and
- ii) In respect of taxable temporary differences associated with investments in subsidiaries, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- i) When the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- ii) When the deductible temporary difference is associated with investments in subsidiaries, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

h) Trade and other payables

Trade and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

i) Foreign currencies

The Company's functional currency is Sterling (£). Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. As at the reporting date the assets and liabilities of these subsidiaries are translated into the presentation currency of Thor Mining PLC at the rate of exchange ruling at the balance sheet date and their income statements are translated at the average exchange rate for the year. The exchange differences arising on the translation are taken directly to a separate component of equity.

All other differences are taken to the income statement with the exception of differences on foreign currency borrowings, which, to the extent that they are used to finance or provide a hedge against foreign equity investments, are taken directly to reserves to the extent of the exchange difference arising on the net investment in these enterprises. Tax charges or credits that are directly and solely attributable to such exchange differences are also taken to reserves.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

1 PRINCIPAL ACCOUNTING POLICIES CONTINUED

j) Share based payments

During the year the Group has provided benefits to Directors of the Group in the form of share options.

The cost of these equity-settled transactions with Directors was measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using a Black-Scholes model.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Thor Mining PLC (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant holders become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The Income Statement charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the holder, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share (see *Note 7*).

k) Leased assets

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

i) Finance Leases

Assets funded through finance leases are capitalised as fixed assets and depreciated in accordance with the policy for the class of asset concerned.

Finance lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as an expense in the income statement.

ii) Operating Leases

All operating lease payments are charged to the Income Statement on a straight line basis over the life of the lease.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

1 PRINCIPAL ACCOUNTING POLICIES CONTINUED

l) Cash and cash equivalents

Cash and short-term deposits in the balance sheet comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts

m) Trade and other receivables

Trade receivables, which generally have 30 day terms, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts.

An allowance for doubtful debts is made when there is objective evidence that the Group will not be able to collect the debts. Bad debts are written off when identified.

n) Investments

Investments in subsidiary undertakings are stated at cost less any provision for impairment in value, prior to their elimination on consolidation.

o) Financial instruments

The Group's financial instruments, other than its investments, comprise cash and items arising directly from its operation such as trade debtors and trade creditors. The Group has overseas subsidiaries in Australia whose expenses are denominated in Sterling, and Australian Dollars respectively. Market price risk is inherent in the Group's activities and is accepted as such. There is no material difference between the book value and fair value of the Group's cash.

p) Merger reserve

The difference between the fair value of an acquisition and the nominal value of the shares allotted in a share exchange have been credited to a merger reserve account, in accordance with the merger relief provisions of the *Companies Act 1985* and accordingly no share premium for such transactions is set-up.

q) Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Land is measured at fair value less any impairment losses recognised after the date of revaluation.

Depreciation is provided on all tangible assets to write off the cost less estimated residual value of each asset over its expected useful economic life on a straight-line basis at the following annual rates:

Land (including option costs) – Nil

Plant and Equipment – between 5% and 25%

All assets are subject to annual impairment reviews.

r) Impairment of assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired.

If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at its revalued amount (in which case the impairment loss is treated as a revaluation decrease).

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

1 PRINCIPAL ACCOUNTING POLICIES CONTINUED

r) Impairment of assets

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Income Statement unless the asset is carried at its revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

s) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability.

t) Loss per share

Basic loss per share is calculated as loss for the financial year attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted loss per share is calculated as loss for the financial year attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

u) Merger reserve

The difference between the fair value of an acquisition and the nominal value of the shares allotted in a share exchange have been credited to a merger reserve account, in accordance with the merger relief provisions of the Companies Act 1985 and accordingly no share premium for such transactions is set-up.

v) Share based payments reserve

This reserve is used to record the value of equity benefits provided to employees and directors as part of their remuneration and provided to consultants and advisors hired by the Group from time to time as part of the consideration paid.

w) Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries.

x) Adoption of new and revised Accounting Standards

In the current year, the company has adopted all of the new and revised Standards and Interpretations issued by Accounting Standards and Interpretations Board that are relevant to its operations and effective for the current annual reporting period and there is no material financial impact on the financial statements of the company or the company.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

	2009	2008
	£'000	£'000

3 OPERATING LOSS – GROUP

This is stated after charging:

Depreciation	28	39
Auditors' remuneration – audit services	8	22
Auditors' remuneration – non audit services	-	-
Options issued – directors, staff and consultants	10	79
Directors emoluments – fees and salaries	193	321

Auditors remuneration for audit services above includes £8,175 for accrued expenditures (2008: £7,389 charged by Somes and Cooke Chartered Accountants (Australia), relating to audit of the subsidiaries). Also during the year the company paid £14,000 to Chapman Davis for the audit of the company which was charged to accrued expenses.

4 REVENUE – GROUP

Interest received	27	104
Other income	29	37

5 DIRECTORS AND EXECUTIVE DISCLOSURES – GROUP

All Directors are each appointed under the terms of a Directors letter of appointment. Each appointment provides for annual fees of Australian dollars \$40,000 for services as Directors plus 9% as a company contribution to Australian statutory superannuation schemes. The agreement allows for any services supplied by the Directors to the Company and any of its subsidiaries in excess of 2 days in any calendar month, can be invoiced to the Company at market rate, currently at \$1,000 per day.

b) Compensation of Key Management Personnel

Compensation Policy

The compensation policy is to provide a fixed remuneration component and a specific equity related component. There is no separation of remuneration between short term incentives and long term incentives. The Board believes that this compensation policy is appropriate given the stage of development of the Company and the activities which it undertakes and is appropriate in aligning director and executive objectives with shareholder and businesses objectives.

The compensation policy, setting the terms and conditions for the executive Directors and other executives, has been developed by the Board after seeking professional advice and taking into account market conditions and comparable salary levels for companies of a similar size and operating in similar sectors. Executive Directors and executives receive either a salary or provide their services via a consultancy arrangement. Directors and executives do not receive any retirement benefits other than compulsory Superannuation contributions where the individuals are directly employed by the Company or its subsidiaries in Australia. All compensation paid to Directors and executives is valued at cost to the Company and expensed.

NOTES TO THE ACCOUNTS

5 DIRECTORS AND EXECUTIVE DISCLOSURES – GROUP CONTINUED

b) Compensation of Key Management Personnel

Compensation Policy

The Board policy is to compensate non-executive Directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the non-executive Directors and reviews their compensation annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to Directors is subject to approval by shareholders at a General Meeting. Fees for non-executive Directors are not linked to the performance of the economic entity. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and may receive options.

(v) The Company used the consulting services of Barreta Pty Ltd a company of which Mr. Norman Gardner is a Director.

Amounts were billed based on normal market rates for such services and were due and payable under normal payment terms.

These amounts paid to related parties of Directors are included as Salary & Fees in Note 5(b).

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

	2009 £'000	2008 £'000
6 TAXATION – GROUP		
Analysis of charge in year	-	-
Tax on profit on ordinary activities	-	-
Factors affecting tax charge for year		
The differences between the tax assessed for the year and the standard rate of corporation tax are explained as follows:		
Loss on ordinary activities before tax	(1,230)	(1,077)
Standard rate of corporation tax in the UK	28%	30%
Loss on ordinary activities multiplied by the standard rate of corporation tax	(344)	(318)
Effects of:		
Future tax benefit not brought to account	344	318
Current tax charge for year	-	-
No deferred tax asset has been recognised because there is insufficient evidence of the timing of suitable future profits against which they can be recovered.		

7 LOSS PER SHARE

The basic loss per share is derived by dividing the loss for the period attributable to ordinary shareholders by the weighted average number of shares in issue.

Loss for the year	(1,230)	(1,077)
Weighted average number of Ordinary shares in issue	159,236,518	141,295,494
Loss per share – basic	(0.77)p	(0.76)p
Loss per share – dilutive	(0.77)p	(0.76)p

As the inclusions of the potential Ordinary Shares would result in a decrease in the loss per share they are considered to be anti-dilutive and as such not included.

8 INTANGIBLE FIXED ASSETS – GROUP

Deferred exploration costs

Cost

At 1 July	5,419	4,191
Additions	302	1,228
At 30 June	5,721	5,419

Amortisation

At 1 July and 30 June	268	-
Net book value at 30 June	5,453	5,419

As at 30 June 2009 the Directors undertook an impairment review of the deferred exploration costs, as a result of which, a provision for impairment for £268,593 has been made.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

9 INVESTMENTS – COMPANY

The Company holds 20% or more of the share capital of the following companies:

Company	Country of registration or incorporation	Shares held Class	%
Molyhil Mining Pty Ltd	Australia	Ordinary	100
Hatches Creek Pty Ltd	Australia	Ordinary	100
Hale Energy Limited	Australia	Ordinary	100

Each of the subsidiary companies are engaged in exploration activities in the Northern Territory of Australia.

	2009 £'000	2008 £'000
Carrying value of investments in subsidiaries		
Molyhil Mining Pty Ltd	700	700
Hatches Creek Pty Ltd	-	-
Hale Energy Limited	1,277	1,277
	1,977	1,977

The investments in subsidiaries are carried in the Company's balance sheet at the lower of cost and net realisable value.

10 LOAN TO SUBSIDIARIES

Molyhil Mining Pty Ltd	2,566	2,487
Hatches Creek Pty Ltd	99	99
Hale Energy Limited	1,995	1,995
	4,660	4,581

The loans to subsidiaries are non-interest bearing, unsecured and are repayable upon reasonable notice having regard to the financial stability of the company. The Company has issued letters of financial support for a term of 12 months to each of the Australian based subsidiary entities.

11 MINING AND FEASIBILITY COSTS – GROUP

Cost		
At 1 July	1,171	726
Additions	128	445
At 30 June	1,299	1,171
Amortisation		
At 1 July and 30 June	-	-
Net book value at 30 June	1,299	1,171

As at 30 June 2009 the Directors undertook an impairment review of the exploration and development costs, as a result of which, no provisions were required.

20 POST BALANCE SHEET EVENTS

There were no material events arising subsequent to 30 June 2009 to the date of this report which may significantly affect the operations of the Company, the results of those operations and the state of affairs of the Company in the future.

On 27 July, 2009 an issue of 45,000,000 were placed with sophisticated U.K. investors following approval from the shareholders given at a general meeting held in London on 08 July, 2009.

21 CONTINGENT LIABILITIES AND COMMITMENTS

a) Exploration commitments

Ongoing exploration expenditure is required to maintain title to the Group mineral exploration permits. No provision has been made in the financial statements for these amounts as the expenditure is expected to be fulfilled in the normal course of the operations of the Group.

b) Claims of native title

The Directors are aware of native title claims which cover certain tenement and tenement applications in the Northern Territory. The Group's policy is to operate in a mode that takes into account the interests of all stakeholders including traditional owners requirements and environmental requirements. At the present date no claims for native title have seriously affected exploration by the Company.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2009

22 FINANCIAL INSTRUMENTS

The Group uses financial instruments comprising cash, liquid resources and debtors/creditors that arise from its operations.

The Group's exposure to currency and liquidity risk is not considered significant. The Group's cash balances are held in Pounds Sterling and in Australian Dollars, the latter being the currency in which the significant operating expenses are incurred.

To date the Group has relied upon equity funding to finance operations. The Directors are confident that adequate cash resources exist to finance operations to commercial exploitation but controls over expenditure are carefully managed.

The net fair value of financial assets and liabilities approximates the carrying values disclosed in the financial statements.

The currency and interest rate profile of the financial assets is as follows:

	June 2009 £'000	June 2008 £'000
Cash and short term deposits		
Sterling	144	747
Australian Dollars	54	574
At 30 June	198	1,321

The financial assets comprise interest earning bank deposits.

Set out below is a comparison by category of carrying amounts and fair values of all of the Group's financial instruments recognised in the financial statements, including those classified under discontinued operations.

The fair value of cash and cash equivalent, trade receivables and payables approximate to book value due to their short-term maturity.

The fair values of derivatives and borrowings have been calculated by discounting the expected future cash flows at prevailing interest rates. The fair values of loan notes and other financial assets have been calculated using market interest rates.

	Consolidated			
	2009 Carrying Amount £'000	2009 Fair Value £'000	2008 Carrying Amount £'000	2008 Fair Value £'000

23 RELATED PARTIES

There is no ultimate controlling party.

Thor has lent funds to its wholly owned subsidiaries, Molyhil Mining Pty Ltd, Hale Energy Ltd and Hatches Creek Pty Ltd to enable it to carry out its operations in Australia. At 30 June 2009 the amount outstanding converted to £4,660,284.

Thor Mining PLC engages the services of Ronaldson Solicitors, a company in which Mr Stephen Ronaldson is a Senior Partner. Mr Ronaldson is the UK based Company Secretary. During the period £21,514 was paid to Ronaldson Solicitors.

Thor Mining PLC occupies part of a building and utilises services of staff members provided by Western Desert Resources Limited. Services provided during the year include, but are not limited to, Administrative, Accounting, Payroll and Secretarial fees whereby the terms of charges are governed by a Services Agreement which was prepared on normal commercial terms. The amount paid during the year was £73,561. Western Desert Resources Limited is considered related due to its level of shareholding held in Thor Mining PLC and its Directors.

There are no other amounts outstanding to/from related parties at the balance sheet date.

ASX ADDITIONAL INFORMATION

Additional information required by the Australian Stock Exchange Limited Listing Rules and not disclosed elsewhere in this report is set out below.

SHAREHOLDINGS (as at 17th September 2009)

Stock Exchanges

Thor Mining PLC shares and warrants are dual listed on the AIM market and the Australian Stock Exchange. On the ASX they are traded as CDI's.

ASX ADDITIONAL INFORMATION

ASX CORPORATE GOVERNANCE DISCLOSURE

The ASX Code on Corporate Governance requires that every public company disclose its compliance with each principle of the Code. During the financial year 2008/09 ("Reporting Period") the Company has complied with each of the Ten Essential Corporate Governance Principles and Best Practice Recommendations as published by the ASX Corporate Governance Council, other than in relation to the matters specified below.

Recommendation 2.1, 2.2

2.1 Majority of the Board should be Independent Directors

The Board considers that Mr G Durack is an independent director in accordance with Recommendation 2.1. Whilst the remainder of the Board are not independent, the Board believes that all the individuals on the Board can make, and do make, quality and independent judgements in the best interests of the Company on all relevant issues. Directors having a conflict of interest in relation to a particular item of business must absent themselves from the Board meeting before commencement of discussion on the topic.

The Board considers that its structure has been, and continues to be, appropriate in the context of the Company's history and the size and scale of operations. The Company considers that each of the non-independent directors possess skills and experience suitable for building the Company. The Board intends to reconsider its composition as the Company's operations evolve, and appoint further independent directors as appropriate.

2.2 The Chairman should be an independent director

Mr Michael Billing is the Executive Chairman and is not considered to be independent in respect of the ASX Corporate governance Council's definition of independence. The board considers that the expertise and dedication of Mr Michael Billing gives constructiveness and organisation to the board and its functions.

Recommendation 2.4

A separate Nomination Committee has not been formed

The Board considers that the Company is not currently of a size to justify the formation of a nomination committee. The Board as a whole undertakes the process of reviewing the skill base and experience of existing directors to enable identification of attributes required in new Directors. Where appropriate, independent contractors are engaged to identify possible new candidates for the Board.

Recommendation 4.3

The role of the Audit Committee is carried out by the full Board and does not comprise only non-executive directors and a majority of independent Directors. The Board considers this appropriate given its size and stage of development. As the Company grows, the Board intends to move towards an Audit Committee comprising primarily independent Directors.

Recommendation 8.1

Non-disclosure of the process of evaluating the board

The process for evaluation of the Board, individual Directors and key executives was not disclosed. However, an evaluation of the Board, Directors and key executives does occur on an informal basis at least annually.

ASX ADDITIONAL INFORMATION

ASX CORPORATE GOVERNANCE DISCLOSURE CONTINUED

Recommendation 9.2

The full Board carried out the functions of the Remuneration Committee. All matters of remuneration were determined by the Board in accordance with Corporations Act requirements, especially in respect of related party transactions. That is, no Directors participated in any deliberation regarding their own remuneration or related issues.

Skills, experience, expertise and term of office of each Director

A profile of each Director containing the applicable information is set out on the Company's website.

Identification of Independent Directors

Mr G Durack is independent in accordance with the criteria set out in Box 2.1 of the ASX Principles and Recommendations.

Statement concerning availability of independent professional advice

Subject to the approval of the chairman, an individual Director may engage an outside adviser at the expense of Thor Mining PLC for the purposes of seeking independent advice in appropriate circumstances.

Names of nomination committee members and their attendance at committee meetings

The full Board carries out the functions of the Nomination Committee. The Board did not convene formally as the Nomination Committee during the Reporting Period, but rather, discussed relevant issues on an as-required basis.

Names and qualifications of audit committee members

The full Board performs the functions of the Audit Committee. Mr Michael Billing is financially literate.

Number of audit committee meetings and names of attendees

During the Reporting Period the audit committee met with the external auditors in respect of the half year and full year financial reports.

During the Reporting Period an evaluation of the Board was conducted as an informal review during regular meetings of the Board.
